Early Career Data Analyst and Information Systems Student experienced in Python, SQL, Tableau, and business analytics with a passion for transforming data into actionable insights. Known for quickly learning new technologies, solving complex problems, and combining analytical thinking with exceptional customer service to improve outcomes in a business environment.

EDUCATION

Bachelor of Science in Information Systems, Minor in Spanish

Apr 2028

Brigham Young University - Marriott School of Business, Provo, UT

- GPA 3.56
- Relevant Courses: Computer Science (Python), Information Systems (SQL, VBA, HTML/CSS), Spreadsheet & Business Analysis, Principles of Accounting, Intro to Economics

TECHNICAL SKILLS

Development: Python, HTML/CSS, VBA

Data & Analytics: SQL, Tableau, Pandas, NumPy, Matplotlib, Advanced Excel

Cloud & Version Control: Git, GitHub, GitHub Pages

Artificial Intelligence (AI): ChatGPT, Gemini, Claude, Prompt Engineering

Business Applications: Microsoft Office Suite, Zoho

Media & Design Tools: Adobe Premiere Pro, CapCut

TECHNICAL PROJECTS

NBA Player Value Web App (2026)

- Built and deployed an interactive NBA analytics web application using HTML, CSS, JavaScript, and Chart.js that evaluates player value using a custom Box Plus/Minus per \$1M salary metric
- Designed a proprietary scoring algorithm with tiered value grades, live search with autocomplete, sortable leaderboards, and dynamic player dashboards to support interactive performance analysis
- Integrated Basketball Reference and HoopsHype data into a curated dataset, connected the DiceBear API for dynamic avatars, and deployed the application to GitHub Pages using Git for version control

Book of Mormon Text Analytics Project (2026)

- Analyzed 6,500+ verses from the Book of Mormon using Python (Jupyter Notebook), Pandas and Tableau to evaluate word frequency, vocabulary richness, and TF-IDF patterns
- Developed interactive Tableau dashboards and Matplotlib visualizations using Python and Git version control before publishing project to GitHub

EXPERIENCE

Client Success Specialist

Apr 2026 - Present

Marriott School of Business, BYU, Provo, UT

- Coordinated recruiting events for 15+ employer partners, managing scheduling and logistics that connected 100+ students with corporate recruiters through Handshake
- Managed CRM records and employer communications across 15+ recruiting partners using Microsoft Office, improving scheduling accuracy and relationship tracking
- Supported recruiting events serving 100+ students and recruiters, resolving real-time logistical issues to ensure seamless employer engagement

Custodian

Aug 2025 - April 2026

Heritage Halls Building Care, BYU, Provo, UT

- Maintained cleanliness and safety standards for residential facilities serving 250+ students
- Ensured 100% compliance with BYU housing safety and sanitation protocols, consistently inspecting work areas
- Executed tasks and anticipated resident needs, contributing to a comfortable and welcoming living environment

Food Service Associate

Apr 2022 - Aug 2022

Sourdough Bread Company, El Dorado Hills, CA

- Prepared 15–20+ custom sandwich orders per shift, balancing speed and accuracy to deliver high-quality meals
- Delivered attentive customer service, creating a positive dining experience for guests and teammates
- Maintained clean and organized workstations, washing and sanitizing kitchen operations during slower periods

Warehouse Order Fulfillment Associate

Apr 2021 - Aug 2021

Impact Photographics, El Dorado Hills, CA

- Fulfilled 5–10 wholesale orders daily for multiple U.S. national parks, carefully preparing merchandise for shipment
- Balanced speed and precision in a warehouse environment, ensuring accurate deliveries to retail partners

Volunteer Representative & Office Secretary (Spanish Fluency)

May 2023 - May 2025

The Church of Jesus Christ of Latter-day Saints, Oaxaca, Mexico

- Coordinated travel logistics, records, and administrative operations supporting 200+ volunteer representatives across multiple areas
- Created leadership reports and presentations using Excel, PowerPoint, and Google Slides to support weekly planning and organizational decision-making
- Communicated daily in Spanish while providing outreach and service across diverse communities, strengthening cross-cultural communication and relationship-building skills
